APPRIO

HEALTH SERVICES

Apprio has over two decades of experience serving groundbreaking organizations in health care.

Navigating the Changing Health Landscape

Health care is undergoing major changes, changes that directly impact how you do business:

- ✓ Quality outcomes are essential
- ✓ The nation is achieving unprecedented strides in interoperability
- ✓ The volume and types of data collected is growing exponentially
- ✓ Digital technology is empowering stakeholders
- ✓ Regulations and payment models are shifting

Apprio can help you navigate these changes by applying our deep industry expertise. We can help you lead your organization in driving health care innovation by applying real-world, proven approaches to your health business and technology requirements.

WHO WE SERVE

Federal Health Agencies

Apprio works with agencies to take full advantage of their technology to improve operations, better understand the people they serve and track quality measures to ensure they are only paying for high-quality care. We help federal agencies:

- ✓ Deliver strategic advisory services
- ✓ Plan and execute IT projects
- ✓ Promote quality care and public health
- ✓ Implement standards-based technologies

Health Care Providers

Apprio helps health care providers implement and manage technology solutions that help them achieve efficiencies and deliver better care. Our team can help you:

- ✓ Take full advantage of data
- ✓ Ensure accurate patient matching
- ✓ Maximize your revenue
- ✓ Educate and train your staff

APPRIO'S WORK WITH FEDERAL HEALTH CARE ORGANIZATIONS

WE PROVIDE A WIDE RANGE OF SERVICES FOR OUR HEALTH CLIENTS.

CMS AMG - Maintains and provides support for CMS' Division of Transactions Applications and Standards (DTAS) reporting website. Provides expert EDI project management advice, guidance and support services to assist CMS with implementing and maintaining various strategic initiatives related to 5010, ASCA, CARC/RARC, ICD10 and New Medicare Card initiatives.

CMS OIT - Provides a wide range of BI and ETL service that include the full range of SDLC support, agile methodologies, data warehouse, information systems, products and data mining, technical proficiency, subject matter expertise, program and project management services, and operational and user training and coaching.

HHS - Built the case management system that the Office of Human Services Emergency Preparedness and Response (OHSEPR) uses to manage its case work. Provided claims adjudication and payment services for HHS for the Haiti Earthquake, Ebola Crisis, Hurricane Irma and Hurricane Maria using Medicare and Medicaid rates and methodologies. Developed and operated the National Disaster Medical System electronic health record that HHS uses for all federally declared disaster responses.

Medical Staff Credentialing Services - Performed clinical staff credential verification for all U.S. Army Reserve clinicians, the U.S. Coast Guard and the National Disaster Medical System. Developed and maintained credentialing work flow systems.

ONC FHA - Assists the Federal Health Architecture (FHA) develop the logical model of health information housed in federal agencies.

Apprio's Baltimore Office

Our commitment to federal health is demonstrated in our real estate. The company opened a 13,000 sq. ft. office in Baltimore next to CMS' headquarters and collaboration center.

Clients can utilize the office's amenities, including:

✓ Training facilities for large classes   ✓ Presentation spaces
✓ Meeting rooms
