APPRIO INTERNATIONAL DEVELOPMENT

ABOUT APPRIO, INC.

Apprio is a leading provider of specialized technology solutions in the Health, Defense, Homeland Security and International Development markets. Apprio has substantial experience providing program and technology that support Interoperability, Health Information Exchange (HIE), Information Security, Credentialing and Software Engineering, among others. During the last two decades, Apprio has cultivated trusted partnerships with government clients within HHS, DHS, DoD and Veterans Affairs (VA) by hiring and retaining the most talented technology professionals in the industry.

A Dependable Partner at Your Side on the World Stage

We at Apprio understand that taking on complex socioeconomic, technical and environmental international projects presents unique demands and multifaceted challenges. Operating on the international level requires specialized skills, dependable project management and technical finesse. It demands flexibility, resourcefulness and reliability.

Apprio supports U.S. federal agencies and other organizations engaged in international development – whether the offices are located domestically or overseas – with professional and administration support, problem solving, project management, logistical support, program design and technology development. We offer an award-winning team of business and technical professionals with useful insights and deep experience who are undaunted working in new environments.

Apprio's International Development Work

» Support to USAID's U.S. Global Development Lab

Apprio delivers a wide range of specialized staffing support to assist the U.S. Global Development Lab with its mission of helping with the U.S. government's development and foreign policy priorities. Apprio has partnered with agencies such as USAID to advance Science, Technology, Innovation and Partnership (STIP).

» Communicating USAID's Mission to Global Staff

Apprio provides full-scale internal communications capabilities to assist USAID in communicating information throughout the global organization. The team deploys social media, technology networks, electronic newsletters and other channels to ensure USAID employees and contractors are apprised of the latest agency news and information.

» Creating a Medical Response Strategy in Syria

Apprio partnered with subject matter experts from Partners In Health, MDB, Inc., Cocciardi & Assocs. and the International Medical Corps (IMC) in a pilot project for USAID to deliver comprehensive chemical casualty decontamination and medical management training and equipment to Syrian medical providers. The intent was to provide primary protection of mobile healthcare facilities within Syria from chemical warfare agents.
